

BLASTIQUE

(ELECTROFLY UK / SILO RECORDINGS UK)

Guaranteed to be a performance of epic proportions, Blastique brings together the traditional aspects of DJing with live remix and editing, resulting in a genre bending sound that would please just about anyone from chart-lovers to true electronica fans, but that over-eager trainspotter who'll never "get it" may face some trying times!

φ

Classically trained in music, **Blastique** a.k.a. Reuben Samuel has spent the past decade perfecting his electronic music production and performance skills. Today, a degree-wielding **Sonic Artist** and a **Certified Ableton Trainer**, he laces his sound with scalpel-like precision, technical mastery, and an unrelenting attitude that refuses to be pigeon holed. Blastique has released a string of solo productions on UK labels such as **Silo Recordings** and **Electrofly Records**, and his works and collaborations including one with **Nu-Tandique & The Cut**, have been licensed to several compilations including **Ministry of Sound's Summer Sessions Vol. 5**, securing a top ten place in the **Aria Club Charts** for over 4 weeks straight! Immediately following this was yet another quality remix by Nu-Tandique of 80's hit "Don't You Want My Love", with support from the Flash Brothers & Miguel Migs, amongst others. Heavyweights such as **Deepgroove**, have also done remix duties.

Blastique performs live with his integrated arsenal of MIDI gear & Ableton.
